## IT INFRASTRUCTURE, NETWORK & CYBERSECURITY SPECIALIST

*Network Security | Incident Response | IT Infrastructure | Cloud & AI | IT Project Management*

## Professional Summary

**IT infrastructure and cybersecurity professional** with hands-on experience since 2021 across hospitality, telecommunications, humanitarian and industrial environments. Currently leads IT, network security and service availability for a five-entity group in Kinshasa, with 99.9% SLA on client-facing systems and sub-2-hour incident response. Practical blue-team and pentest skills built through Hack The Box, LetsDefend and CTF competitions. Fluent in French and English; professional Swahili.

## Core Skills

- **Networking:** Cisco IOS, routing & switching, VLANs, structured cabling, server racks & patch panels, FTTH, Starlink, Wi-Fi.
- **Cybersecurity:** vulnerability assessment, system & web hardening, firewall & antivirus deployment, incident response, log analysis (auth.log, wtmp, web logs), DFIR, MITRE ATT&CK.
- **Systems & Cloud:** Linux, Windows, backup & Disaster Recovery Planning (DRP), monitoring, AWS (Bedrock).
- **IT Operations:** SLA management, PMS, POS, CCTV, telephony, IT procurement & budgeting, user training.
- **Development:** Python, Bash, SQL (MySQL, PostgreSQL), Flutter/Dart, Supabase.
- **Tools:** Jira, Trello, MS Project, GitHub, VS Code, KoboCollect, Microsoft 365.

## Professional Experience

### Head of IT, Engineering & Technology (IT Consultant)

**Malaïka Group – Kinshasa, DRC | Feb 2026 – Present**

*Multi-sector group: agribusiness, real estate, food processing, trade, hospitality and travel.*

- Lead IT, cybersecurity and engineering across five entities (Malaïka Group, Malaïka Ranch, Malaïka Travels, Le Gabriel, Chez Malaïka).
- Joined as Network Technician for an emergency network audit; restored critical network failures, which led to a group-wide IT consulting contract within one month.
- Hardened the group's web platforms after a major cyberattack: vulnerability scans, security patches, firewall and antivirus deployment.
- Deployed continuous monitoring; maintain 99.9% availability for Wi-Fi, PMS and key-card access, 99.5% for POS terminals and 99% internet uptime.
- Lead incident response with technical intervention under 2 hours for critical incidents.
- Designed and regularly test the Disaster Recovery Plan (DRP) and data backup routines.
- Supervise CCTV and telephony systems at 95%+ availability; deliver monthly reports to executive management and IT training to staff.

### Founder & Principal Consultant

**M-Sec Technology Consulting – Kinshasa, DRC | May 2026 – Present**

- Deliver vulnerability assessments, system hardening and security consulting to small organizations.
- Design and build custom web and mobile applications to digitize client workflows.

### IT & Operations Manager

**ALOM Services – Goma, DRC | Oct 2024 – May 2025**

*Digital printing and IT services start-up.*

- Led the technical and operational launch of the company, from initial IT budget to full deployment.
- Procured hardware and installed the local network, workstations and industrial printers end to end.
- Set up the technical foundation of a cybercafé and an IT training center.
- Recruited and onboarded the first technical staff; defined workflows and managed vendor partnerships.

### IT Specialist (field mission)

**Genocost – Goma, DRC | Aug 2024**

*Organization supporting field operations and national commemoration.*

- Deployed temporary IT infrastructure and first-level support for national commemoration field operations.
- Configured emergency communication equipment and maintained data collection tools under tight deadlines.

### Network Deployment Technician (contract)

**Canalbox (Group Vivendi Africa) – Goma, DRC | Sep 2022**

*Telecommunications operator and high-speed fiber internet provider.*

- Delivered the structured cabling of the new Goma office: cable pulling, labelling, endpoint identification.
- Mounted server racks, configured patch panels and equipped the main meeting room to telecom standards.

### Assistant IT Specialist

**Hima Cement (LafargeHolcim) – Goma, DRC | 2021**

*Building materials manufacturer.*

- Provided first-level support and deployed mobile tools for field data collection during regional campaigns.
- Maintained digital terminals and assisted with local IT asset management.

## Hands-on Security Practice

- Hack The Box: Level 25; HTB Academy path Cracking into Hack The Box completed; 10+ Academy modules (Network Enumeration with Nmap, SQL Injection Fundamentals, Linux Fundamentals, Web Requests).
- Rooted machines Cohort (SSRF, CVE-based privilege escalation) and Orion; solved Sherlocks Brutus (Linux log forensics, SSH brute force) and Investigate Web Attack (web server log analysis).
- CTF AAR Cyber, Octobre Cyber 2026 (Nu Jang Informatique) – participation certificate.

## Education

- **Bachelor's Degree (Licence) in Networks, Telecommunications & Maintenance** — ISIPA, Kinshasa, DRC | 2025
- **Higher Diploma in Computer Science** — ISIG, Goma, DRC | 2019 – 2025

## Certifications

- **Cisco Networking Academy:** Junior Cybersecurity Analyst Career Path (2026) · Networking Devices and Initial Configuration (2026) · Networking Basics (2026) · Introduction to Cybersecurity (2022) · CCNA: Introduction to Networks (2022).
- **In progress:** Cisco Ethical Hacker (target: Nov 2026) · CCNA: Switching, Routing and Wireless Essentials (SRWE).
- **Linux:** NDG Linux Essentials (2022) · NDG Linux Unhatched (2022).
- **AWS:** Fundamentals of Generative AI (2025).
- **UNHCR:** Refugee Emergency Telecommunications Sector (RETS) – VHF/UHF repeater remote monitoring (2026).
- **Internet Society:** Grant Ready – Building Your Grant Application (2026).

## Volunteering & Memberships

### Volunteer First Aider & Depot Assistant

**Red Cross DRC | Apr 2022 – Dec 2024**

- Supported depot management, inventory and logistics for humanitarian operations; certified first aider.

### Member

**Internet Society (ISOC) | Member for several years**

- Engaged in the global Internet community; completed the ISOC Learning course Grant Ready – Building Your Grant Application (2026).
